

## **INTRODUCTION**

Caddy Storage has recently invested in some state of the art machinery to add to our manufacturing facility at our Sydney head office. The new machines allow for production times to be reduced with a wider range of products to be manufactured to the highest quality standards.

## **BRANDS WE WORK WITH**

### **salvagnini**

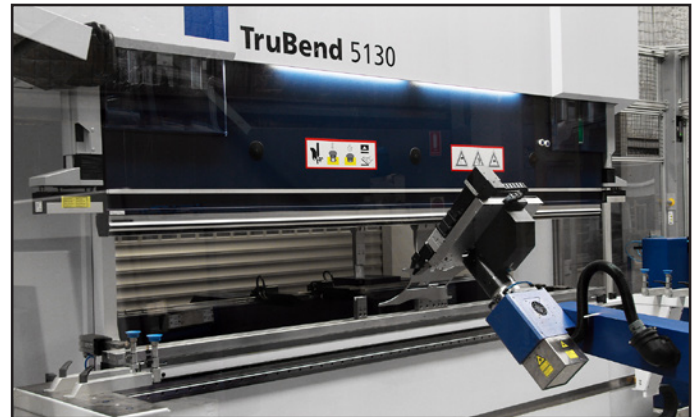

Salvagnini designs and supplies flexible machines and systems for processing sheet metal. With its complete and diversified range of machines, Salvagnini is able to intervene in countless application sectors, providing secure and innovative answers for companies of all sizes.

TRUMPF is a high-tech company that focuses on manufacturing technology, laser technology and medical technology. They offer both innovative and high-quality products in sheet metal processing, laser-based production processes, electronic applications and in hospital equipment.
