

Caddy Storage Service Bodies & toolboxes are made to suit all Dual Cab, Extra Cab and Single Cab Utes. It features a solid design with internal supports all along the roof and body & is constructed from 2.5mm aluminium plate with additional aluminium reinforcement along the floor. The side doors are a simple gull wing design & contain a 105 - 120 degree opening angle. They are designed to fully shield you throughout most weather conditions, giving you on-site cover while you work. The exterior finish of our Service Bodies & Toolboxes come in either a white powder coat, polished propeller aluminium finish or can be refinished in Automotive 2 Pack Paint to match the colour of your vehicle.

Our Service bodies & toolboxes are a smart and economical choice for tradesmen, combining the storage capability of a van with the versatility to go most places with a Ute & are ideal for the on-the-go tradesmen looking to store their tools in safe, lockable & functional environment. They are a Caddy ensures that a host of safety and security features are included as standard, but we also provide a range of options to help you with your particular trade (see below).
